VISION

To be the most trusted and innovative container solutions provider, by empowering businesses with flexible, cost effective, sustainable, and technology-driven container management.

VALUES

- Trust
- Customer-centricity
- Innovation
- Diversity and inclusiveness
- Integrity and ethics

ABOUT US

Containerisation is an industry that has rapidly evolved since its inception. Constant fluctuations and technological advancements in global supply trade has underscored the need to redefine container solutions.

ARCON is born out of a growing need to use technology and solutions to increase operational efficiency and enhance sustainability while creating an enriching workspace to reimagine the global logistics' landscape.

ARCON is part of the Saksham Group of Companies, amongst the largest conglomerates in logistics spanning project logistics, chemical transportation, container trading, custom broking, and IT solutions.

MISSION

Drive Cost and Operational Efficiencies

Assuring flexibility and unlocking value for our customers with the power of choice by aggregating the collective power of container inventory.

Phyigital Approach

Leveraging the power of technology and people to forge lasting business relationships to redefine business processes.

Sustainable Innovation

We aim to develop innovative business solutions which are sensitive to our environment and society, thus paving the way for a sustainable future.

Enriching Workspace

To provide an entrepreneurial environment which encourages bold thinking and innovation, to facilitate high productivity and enhance employees' happiness index.

ARCON CONTAINERS

Make the right move for your business with ARCON containers that are suitable for any type of cargo. Our containers fulfil all ISO criteria and have a valid CSC number. A global inspection system ensures that you get best-in-class equipment.

ISO TANKS

ISO tanks are the workhorses of the bulk liquid transportation industry. These standardized, intermodal containers offer a multitude of advantages over other methods of shipping and storing large volumes of liquids, making them the preferred choice for a wide range of applications.

ARCON's ISO tanks provide a safe, efficient, and cost-effective solution for transporting and storing large volumes of liquids. Their versatility, durability, and compliance with global standards make them the ideal choice for a wide range of industries and applications.

UNLOCK SYNERGY FOR A SUSTAINABLE FUTURE

Choose from services across the SAKSHAM GROUP for all your logistics requirements.

UNLOCKING VALUE BY OPTIMISING CONTAINER UTILISATION, GLOBALLY.

In a world where

Every 1 out of 3 containers is moving empty

The industry spends \$20 billion on moving empty containers, adding 12% to the shipping line's operating costs

Trade imbalances, relocation time & unreliable commercial forecasts keep adding to operational inefficiencies

Freight transportation contributes to 8% of global greenhouse gas emissions

Around 330 million metric tonnes of carbon footprint are due to empty container repositioning

We, at ARCON, are committed towards building a sustainable tomorrow:
